

GABRIELA COBEL

Director and Physics Teacher

"George Coşbuc" Secondary
School, Sighetu Marmăţiei

Mental Health & Counseling
Cleveland, OH
August 2022

Gabriela Cobel has been a teacher for 33 years and she loves this job. During this time, she has worked with students from all social backgrounds, in several schools in Romania. She got involved in many volunteering activities and fought with all the tools of a teacher, so that students do not drop out of school. Being a scientific ambassador for Romania, she has continuously participated in international workshops where she has met teachers from all over the world.

"Open World is a new world, in a New World. A world that brings together teachers and experts, who live, work, breathe and fight for a common goal. Together. With dedication and altruism. A noble and masterful purpose, bringing forth care, education and sanity, for the children of this world."

THEODORA MICHEL

Mentor Teacher

**Gymnasium School "Uruguay",
Bucharest**

**Mental Health & Counseling
Cleveland, OH
August 2022**

Theo's professional activity is related to the education of children. The evolution of society, the fast and diverse social changes from present, the future of each generation - education becomes more and more challenging. She is always looking to develop herself professionally to be able to educate the generations of children that come from unfavorable environments, children with special educational needs.

"It was an extraordinary experience, different from other experiences in my profession, an experience that should not be missed by as many as possible. I was able to complete my professional portfolio with many things related to the organization of American schools, the types and forms of collaboration between them and many organizations that help to integrate and develop the activities of children and their families."

OVIDIU ȘANDOR

English Teacher

Gymnasium School "Dr. Ioan Mihalyi de Apșa", Sighetu Marmăției

Mental Health & Counseling
Cleveland, OH
August 2022

Ovidiu is a serious, responsible teacher who conscientiously fulfills all his duties. He is a competent teacher, with a very good professional training, being appreciated for the way he works and collaborates with students. He fosters a very good teacher-student relationship, which is also reflected in the excellent results obtained by the students, proof of his concern in the teaching-learning act. Ovidiu also stood out for his special qualities as an organizer of extracurricular activities.

"A dream experience! I had the opportunity to meet real professionals, the program was very well thought out and put together. The agenda was very clear and well arranged. I learned new concepts about inclusion, diversity, acceptance, communication, social-emotional intelligence. The experience of working in a team, taking on different roles in turn depending on the specific context of each work session, the dynamism and diversity of the subjects chosen with the aim of immediate personal growth and development, are just some of the aspects that fascinated me and that constituted in my view, the specifics of this program."

LUCIA SERDENCIUC

Primary Education Teacher

"George Coşbuc" Secondary School,
Sighetu Marmăției

Mental Health & Counseling
Cleveland, OH
August 2022

The main objective of Lucia's professional activity is to facilitate the training and development of the students with the help of science. Lucia considers that learning to be a teacher is a permanent, fluid process that opens and evolves in professional lives. It is not a static program or a fixed procedure that one can sit on once and for all. Therefore, her mission as a teacher is to be permanently anchored in the present cultural, social, civic, behavioral trends. Through her classes, she teaches students how to think, not what to do, she encourages them in their creative and research efforts.

"Beyond the challenging and inspiring interactions that I've had as a delegate in this program, I discovered new perspectives through which social, mental and academic problems of refugees can be identified. I am very excited that I have found real solutions in schools in the USA and I congratulate all the teams that participated in the approach of this program to implement their knowledge, to accumulate new information, to exchange good practices. Through their ideas, they not only provide confidence that our society is on the right track but also that we can help humanity move forward."
